Allowable Subject Matter

1. The following is an examiner's statement of reasons for allowance: the amendment filed 6/14/2004 has overcome the technical deficiencies of the recited claims. The prior art of record fails to teach or fairly suggest second positive side switch element for selectively connecting the first positive side node to a second node depending upon a second control signal, a third switch element for selectively connecting the third node to the second node depending upon a third control signal as called for in claims 1 and 14. Therefore, claims 1-29 are presently allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Tuan T. Lam whose telephone number is 571-272-1744. The examiner can normally be reached on Monday to Friday (7:30 am to 6:00pm).
